MCS | MULTI CHANNEL TRACK SYSTEM

APPLICATION:

Residential and commercial market

FEATURES:

- elegant Multi Channel track System for several curtains
- asymmetric Reversible Multi Channel System, for use as a 3 or 2 channel track
- also available in a compact version with 2 or 1 channel track
- available in 2 colours: white and anthracite
- available length: 6 m
- maximum fabric weight: 15 kg per meter
- sufficient spacing between the channels to allow for different pleating options
- blackout profile optional
- optional cover cap available, for creating an easy pelmet cover
- easy installation thanks to pre-drilled holes
- can also be used with wave pleat system (FES)

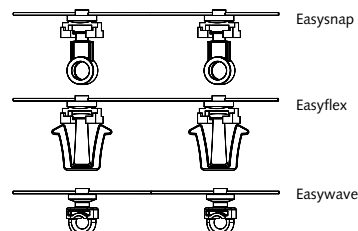

FES | WAVE SYSTEM

APPLICATION:

Residential and commercial market

FEATURES:

- system that gives a modern and special folding design to curtains
- suitable for 3 types of carriers: Easysnap, Easyflex, Easywave
- available in 60% (8,0 cm), 80% (6,0 cm) and 100% (5,4 cm) width
- the wave heading stacks back neatly, taking up less space than traditional pleated headings
- depending on the fullness selected the FES System can be more economical than traditional curtains
- ideal for large and high spaces
- the system can be installed onto all Forest manual, corded and motorised tracks and curtain rod systems
- available in 2 colours: white and black

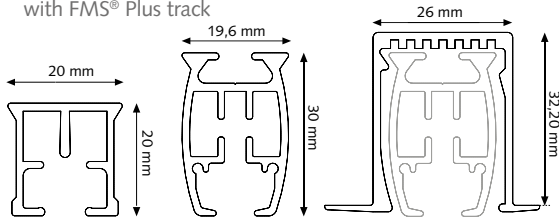

FMS | MOTORISED CURTAIN TRACK SYSTEM

APPLICATION:
Residential and commercial market

FEATURES:

- the FMS track is world's slimmest and most reliable motorised track system
- smooth and noiseless belt driven track
- available in 3 versions: FMS, FMS Plus and FMS Plus Recess
- FMS is bendable, both with an inside and outside corner with a radius 20 cm
- available in white, matt white, grey, black and matt black
- available lengths: 5.8 and 7 meter (FMS Plus only 7m)
- Shuttle® motors can be used on the FMS® System
- Recess fixation possible by recess profile in combination with FMS® Plus track

SHUTTLE SERIES CURTAIN MOTORS

APPLICATION:
Residential and commercial market

FEATURES:

- high-end motorised curtain track motor
- available in 5 versions, S, M, L, AC and iOn
- works in combination with all Forest motorised tracks
- can be used with curved track
- available in 4 colours: white, grey, anthracite & black
- can be controlled with app, remote control, wall switch or by hand
- easy integration in Domotics
- Z-Wave Plus motor available 
- due to modular design makes it the most versatile curtain motor
- also available as wireless battery pack motor (iOn)
- maximum fabric weight: KS 70 kg per meter (only Shuttle M)

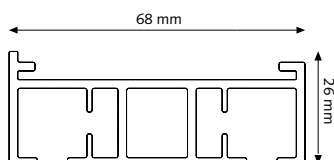

FMS DUAL | MOTORISED TWO CHANNEL TRACK SYSTEM

APPLICATION:
Residential and commercial market

FEATURES:

- a two channel motorised track
- only one Shuttle motor is needed
- the ultimate motorised hotel track
- especially designed to create an overlap
- available colour: white & matt black
- available length: 7 meter
- ceiling mounted
- easy installation thanks to pre-drilled holes
- smooth and noiseless belt driven track
- can also be used with wave pleat system (FES)

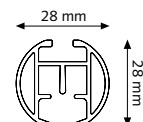

MRS | MOTORISED ROD SYSTEM

APPLICATION:
Residential and commercial market

FEATURES:

- motorised rod system with carriers
- available in dimension: 28 mm
- available in 7 colours: white, gold, inox-an, inox-pc, antique-pc, taupe-pc and anthracite
- available length: 5.8 m
- suitable for daytime assembly
- the motor is fitted at the backside of the rod, to ensure the ultimate look of the curtain
- all Shuttle® motors can be used on the MRS® System
- the motor pulley and the return pulley are designed to be reversible so they can be used left- and right sided
- can also be used with wave pleat system (FES)

BS / BS MAX | ROMAN BLIND

APPLICATION:

Residential and commercial market

FEATURES:

- corded drawn roman blind system for all types of medium and heavy weight draperies
- elegant shaped aluminium profile, with integrated Velcro hook tape so that the fabric can be easily attached & removed

APPLICATION:

Residential and commercial market

FEATURES:

- silent moving, motorised and corded roller blind system
- available in dimensions: 35 mm, 40 mm, 50 mm and 60 mm
- easy installation thanks to adjustable brackets
- width up to 400 cm (60 mm T6 tube)
- maximum total weight 26 kg with 13 Nm tubular motor
- ultra silent motor: <44 dB
- 3 Nm, 6 Nm and 13 Nm motor types available, with and without integrated receiver for Forest Multi remote
- easy to connect to building automation systems
- control by third party app in combination with Forest Wireless Connector and Forest smart plug
- tubular motor also available with internal multi receiver and electronic limit setting

Forest Group is specialised in the development, production and supply of highly innovative curtain tracks and window coverings. We offer different curtain track solutions especially made for the hospitality industry. Whether you choose for our motorised curtain tracks or rods, blinds or manual curtain tracks your client will experience 'the Forest Factor'. Which stands for a unique combination of smooth hanging curtains, comfortable luxury and optimal ease of use.

THE WORLD BEHIND YOUR CURTAINS

More than thirty years ago it started with a flexible aluminium system, better known as Forest KS® system. The range was expanded at a rapid pace, always focusing on functionality and quality. The technologies conquered the world. Hotels all over the world are satisfied users of Forest systems and even iconic hotels like the Palazzo, the Venezian, both in Las Vegas and the mega hotels on the Palm Island in Dubai were equipped with kilometers of tracks from Forest Group.

Our own research and development department continuously works on new developments and technical innovations, from simple solutions to advanced motorised systems. We can therefore proudly say that not just our tracks but also our Shuttle® motorised system are '100% made and developed by Forest'.

Forest Group supplies its products in more than 100 countries worldwide and has sales offices in The Netherlands, United States, China, United Arab Emirates, United Kingdom and Poland, ensuring a global availability of our products.

Separate brochures per system with further details like applications, technical properties and cross-cuts of the profiles are available online.

Some well-known and recognised features of the Forest Group curtain track systems are:

- Wide range of track solutions
- Ultra silent in operation
- Smooth and easy traversing
- Easy to bend
- High quality track systems
- Most reliable motorised curtain track systems
- Easy installation: carriers can be clicked into the track
- Easily incorporated into any hotel automation system
- Sustainable choice due to long lifespan and unique 10-year warranty

The World Behind Your Curtains starts with Forest Group!
