- Suitable for 3 types of carriers: Easysnap, Easyflex, Easywave
- Available in 60% (8,0 cm), 80% (6,0 cm) and 100% (5,4 cm) width
- The wave heading stacks back neatly, taking up less space than traditional pleated headings
- Depending on the fullness selected the FES System can be more economical than traditional curtains
- Ideal for large and high spaces
- The system can be installed onto all Forest manual, corded and motorised tracks and curtain rod systems
- Available in 2 colours: white and black

THE WORLD
BEHIND
YOUR
CURTAINS

Forest Group is specialised in the development, production and supply of highly innovative curtain tracks and window coverings. We offer different curtain track solutions especially made for the hospitality industry. Whether you choose for our motorised curtain tracks or rods, blinds or manual curtain tracks your client will experience 'the Forest Factor'. Which stands for a unique combination of smooth hanging curtains, comfortable luxury and optimal ease of use.

THE WORLD BEHIND YOUR CURTAINS

More than thirty years ago it started with a flexible aluminium system, better known as Forest KS® system. The range was expanded at a rapid pace, always focusing on functionality and quality. The technologies conquered the world. Hotels all over the world are satisfied users of Forest systems and even iconic hotels like the Palazzo, the Venezian, both in Las Vegas and the mega hotels on the Palm Island in Dubai were equipped with kilometers of tracks from Forest Group.

Our own research and development department continuously works on new developments and technical innovations, from simple solutions to advanced motorised systems. We can therefore proudly say that not just our tracks but also our Shuttle® motorised system are '100% made and developed by Forest'.

Forest Group supplies its products in more than 100 countries worldwide and has sales offices in The Netherlands, United States, China, United Arab Emirates, United Kingdom and Poland, ensuring a global availability of our products.

Separate brochures per system with further details like applications, technical properties and cross-cuts of the profiles are available online.

Some well-known and recognised features of the Forest Group curtain track systems are:

- **High-quality standards:** We guarantee a long lifespan.
- **Comfort and silence:** Curtains open and close silently, creating a serene and comfortable environment.
- **Adds style to windows:** Always perfectly hanging curtains thanks to our systems, including motorised solutions.
- **Smart integration:** Controllable via app, voice, and home automation systems for ultimate convenience.
- **Sustainability:** We use a minimum of 75% recycled aluminium.
- **Unique warranty:** 10-year warranty.

Curtain engineering by Forest
