BIOCOTE® TREATMENT FOR BACTERIAL PROTECTION

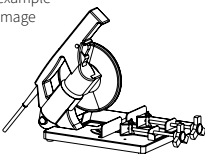

In hospitals, hygiene is of paramount importance. That's why our MTS Standard rail is equipped with the innovative BioCote® treatment. This special treatment is designed to provide an extra layer of protection, promoting a hygienic environment. Independent laboratories have demonstrated that the antimicrobial properties of the BioCote® treatment are 99.9% effective against harmful bacteria such as MRSA, common molds, and fungi. Choose optimal hygiene with our MTS Standard rail featuring BioCote® treatment. The BioCote® treatment offers reliable bacterial protection throughout the lifespan of the track.

EXPERIENCE AND QUALITY

The introduction of the world's first clickable curtain track system KS® Klick System and the Smart Klick® technology was the starting point for Forest Group to become one of the world's most reputable manufacturers of high-end window treatment solutions. Over 25 years later Forest Group curtain track systems still represent the industry's standard due to ongoing innovation and constant focus on the highest quality.

WARRANTY

Whether sophisticated electric curtain systems, decorative channel rod systems or plain tracks, the combination of high end materials and precise manufacturing make it possible for Forest Group to provide a 10-year warranty.
